

Position Title: Designer
Location: Washington, DC
Experience: 2 - 4 years

OEHME, VAN SWEDEN | OvS, an internationally recognized, award-winning landscape architecture firm located on historic Capitol Hill is seeking a qualified, dynamic, and motivated entry-level candidate who is authorized to work in the United States. The position requires a high level of design for a diversified mix of clients that includes government agencies, public institutions, developers, and private homeowners.

The Opportunity: We are seeking a creative and talented Designer to join our team and support the firm's senior staff and principals on projects. The ideal candidate will have strong design skills, enjoy working within a creative team, and carry a strong work ethic. This position will provide the opportunity to work on a broad spectrum of projects and will build a strong foundation in design and construction oversight.

The Role: With an exciting range of current work and potential projects on the horizon, we are looking for a highly motivated candidate to take on a key role with our team. The ideal candidate will:

- Participate in all phases of a project from master plan through construction observation;
- Prepare site analysis documents and diagrams, conduct research relevant to project work, prepare illustrative plans and narrative descriptions, and assist with material selections;
- Deliver a high standard of graphic, written, and verbal communication, and actively engage with and contribute to a vibrant design studio culture;
- Participate as a member of a team, with an ability to collaborate effectively through asking questions, providing input, and listening to others.

About you: This role is ideally suited to someone with 2 – 4 years of relevant experience and:

- Bachelor's or Master's degree in landscape architecture, architecture, or related discipline;
- Experience in the use of relevant software applications including AutoCAD and at least one 3D modeling program. Proficiency with BIM / Revit is strongly desired.
- Strong graphic skills in Adobe Suite programs including InDesign, Photoshop, and Illustrator;
- Desire to deepen familiarity with plant species and planting design.

Candidates must be authorized to work in the United States.
